

**Classification Committee Report**  
**2016 SHSAA AGM**  
**June 2016**

## Foundation of Discussion – SHSAA Guiding Principle

Classification of team sports is based on the **number of students eligible to participate** on behalf of the school. This is generally considered the fairest way to classify. It is acknowledged a larger student population provides more athletes to the school program, therefore a more competitive team. Classification is not intended to provide equal number of teams in each classification. It is the intent of classification to identify competitive levels of play using population of schools to define the levels.

## Provincial and State Comparisons

### British Columbia

Classification is determined by each sport and gender. For example, volleyball classifications are different for boys and girls. Population is calculated with Grade 11 and 12 students.

### Alberta

Classification is universal for all sports. For example, you are a 3A school for every male sport. Populations are determined by grade 10-12 students. Male and female students are counted separately.

### Saskatchewan

Classification is consistent between genders but differs by sport. Populations are determined by grade 10-12 students. Male and female students are counted separately.

### Manitoba

Classification is based on grade 9-12 students as follows:

“AAAA”	All City of Winnipeg schools with a population >500 students plus
“AAA”	All City of Winnipeg schools with 100-500 students plus rural schools >300 students
“AA”	Any City of Winnipeg schools <100 students plus rural schools with 125-300 students
“A”	Any Rural school <125 students.

### Ontario

Classification is based on total grade 9-12 population. 1A 1-600 2A 601-949 3A 949+

### New Brunswick

Classification is based on total grade 9-12 population based on the average of the previous 3 years.

1A 1-299 2A 300-699 3A 700+

### Nova Scotia

Classification is based on total grade 9-12 population.

1A 1-150 (87 schools) 2A 151-299 (40) 3A 300-699 (13) 4A 700+ (20)

American Stats (States with a similar demographic to Sask)

	State Population (million)
Idaho	1.6
Maine	1.3
New Mexico	2.0
New Hampshire	1.3
Montana	1.0
South Dakota	0.85
North Dakota	0.7

	5A	4A	3A	2A	1A	1AA	Population based on
Idaho	1280+ (21)	640+ (24)	320+ (21)	160+ (21)	100+ (23)	99- (39)	Grades 9-12
Montana		826+ (14)	340+ (22)	120+ (40)	119- (103)		Grades 9-12
New Hampshire		1200+ (20)	671+ (24)	351+ (21)	350- (25)		Grades 9-12
Maine		705+	425+	190+	189-		Grades 10-12
South Dakota			450+ (17)	90+ (56)	89- (106)		Grades 9-11
North Dakota				325+	324-		Grades 9-12

New Mexico      The largest 72 schools will be split into 3 groups of 24 resulting in 4A-6A classifications, the remaining schools are split into thirds to get 1A-3A.  
 A multiplying factor of 1.3 is used for private or boarding schools

### Saskatchewan Volleyball

	2014	2013	2012	2011	2010	2009	2008	2007	2006	2005	2004	2003

4A 12-man	15	14	17	17	16	16	10	16	21	20	22	20
Total	101	106	97	102	98	92	92	87	88	87	92	88

# 1. Four Classifications Applied to Each Sport

We like the idea of the 10%/20%/30%/40%. However if we truly want that breakdown we can't be quite so arbitrary in the numbers for the classifications. Instead of his:

1A 1-50 total students in grade 10-12	136 schools = 45% of total schools who submitted enrollment numbers
2A 51-99 total students	80 schools = 27%
3A 100-399 total students	53 schools = 18%
4A is 400+ total students	31 schools = 10%

## Details

1A 1-45 total students in grade 10-12	120 schools = 40% of total schools who submitted enrollment numbers
2A 45-89 total students	86 schools = 28%
3A 90-399 total students	63 schools = 21%
4A is 400+ total students	31 schools = 10%

I realize those number can fluctuate a bit each year but at least we are starting with numbers that reflect the philosophy a bit better. Hopefully that would also give us more meaningful conference play. Then if we applied the 10%/20%/30%/40% rule to each sport listed below then we would get these numbers.

For Girls V'ball (244 teams)	4A – 24 teams	3A – 48 teams	2A – 72 teams	1A – 100 teams
For Girls B'ball (166 teams)	4A – 16 teams	3A – 32 teams	2A – 52 teams	1A – 66 teams
For Boys V'ball (145 teams)	4A – 16 teams	3A – 30 teams	2A – 44 teams	1A – 55 teams
For Boys B'ball (161 teams)	4A – 16 teams	3A – 32 teams	2A – 48 teams	1A – 65 teams

Conclusion: The committee was divided on the potential of this model, it is recommended to take this topic to the SHSAA AGM as a small group discussion topic.

## **2. Classification Based on 9-12 or 10-12**

Refer to Appendices 1 & 2 to analyze the difference between grade 9-12 and grade 10-12 classification.

Of note are Weyburn Composite, which currently has a middle years school with grade 9s. This will change as the grade 9s are moving into the Comp next year. Meadow Lake is also currently 10-12 and the grade 9 students are at Jonas Sampson. Those grade 9s can still be easily included in the Meadow Lake population.

The rationale is that grade nine athletes are eligible for competition for all high school sports so why are they not included in populations for classification purposes.

The contrary argument is that many schools have junior programs that involved grade nines and for all intents and purpose, the grade nine athletes are not used on the senior sports teams.

Conclusion: the classification committee was divided on the value of using grade 10-12 or 9-12 rather than the current grade 9-11, so the status quo will serve the Association well for the future.

### 3. Reducing Male Volleyball Classifications

Current numbers are

1A Boys	57
2A Boys	30
3A Boys	44
4A Boys	36
5A Boys	31
Jr Boys	29
1A Girls	90
2A Girls	45
3A Girls	54
4A Girls	40
5A Girls	35
Jr Girls	47
Total Sr Boys	198
Total Sr Girls	264

Classification	Current #s	Boys	Girls	Potential #s	Potential New Boys	Remains Same Girls
1A	1-20	57	90	1-30	87	90
2A	21-30	30	45	31-50	44	45
3A	31-50	44	54	51-150	36	54
4A	51-150	36	40	151+	31	40
5A	151+	31	35			35
Total		198	264		198	264

The result of collapsing 1A/2A for Boys makes the category similar in size to the girls category for 1A and the remaining categories are relatively similar in population.

## **4. Reducing Volleyball and Basketball Classifications**

Reducing to Appendices 3 through 6 for details on the breakdown of reclassifying volleyball and basketball.

Conclusion: The committee was split in regards to the value of reducing volleyball to four classifications. The classification information was passed on the Sport Advisory Group for additional input.

Recommendation: It was the unanimous recommendation of the committee to reduce basketball to four classifications.

## 5. Reducing Volleyball Regionals to 3 from 4

If we remain at five classifications for volleyball and the numbers of conferences are becoming fewer (particularly in boys) we can reduce the number of regionals in some classifications to 3.

I am recommending the number of 40 to be the cutoff. If there are 40 or more teams then there are 4 regions of 10 teams and 4 teams are eliminated at the conference level.

If there are 39 teams or less in a classification, there would be 3 regions. This would help re-establish conference play.

This would not apply to 5A as they have a unique advancement system.

The effect that this would have had in 2015 is as follows:

Category	2015 # of teams	2015 (red – no conference play)	Proposed Adjustment
1A Boys	37	4 Regions (9, 8, 9, 11)	3 Regions (12, 12, 13)
2A Boys	32	4 Regions (8, 7, 8, 9)	3 Regions (10, 11, 11)
3A Boys	37	4 Regions (9, 9, 10, 9)	3 Regions (12, 12, 13)
4A Boys	26	4 Regions (6, 6, 7, 7)	3 Regions (9, 9, 8)
5A Boys	33	4 Regions (7, 9, 12, 5)	No Change
1A Girls	70	4 Regions (19, 18, 16, 17)	No Change
2A Girls	51	4 Regions (12, 14, 13, 12)	No Change
3A Girls	53	4 Regions (15, 12, 14, 12)	No Change
4A Girls	33	4 Regions (8, 9, 8, 8)	3 Regions (11, 11, 11)
5A Girls	38	4 Regions (7, 12, 11, 8)	No Change

Recommendation: To implement the 3 regional model for volleyball classifications that do not have 40 teams.

## 6. 9 man Football Classification Numbers

The purpose of splitting the 9-man category into two classifications was to increase the number of teams in 9-man. The numbers in 9-man have remained stagnant. Currently the entire 9-man category is the same size as each of the 6-man classifications.

	2015	2014	2013	2012	2011	2010	2009	2008	2007	2006	2005	2004
2A 9-man	11	11	10	21	23	22	24	29	24	24	26	28
3A 9-man	10	10	11									

Conclusion: It is the recommendation of the classification committee to re-establish 9-man as one classification.

## 7. 12 man Football Classification Numbers

Currently there are numerous 3A Football teams reclassifying into 4A Football. This may not continue and it would be proactive to reduce the floor population for 4A Football to increase the number of teams legitimately classified as 4A.

### Saskatoon and Regina Schools

4A Schools by Population (326+)			3A Schools by Population		
Campbell Collegiate	584	4A	Dr. Martin LeBoldus High School	307	4A
Walter Murray Collegiate	526	4A	Thom Collegiate	306	4A
Carlton Comprehensive High School	518	4A	Archbishop M.C. O'Neill	300	3A
Bethlehem High School	403	4A	Mount Royal Collegiate	298	3A
Centennial Collegiate	400	4A	North Battleford Comprehensive	285	3A
Holy Cross High School	399	4A	Evan Hardy Collegiate	281	3A
St. Mary High School	389	4A	Tommy Douglas Collegiate	270	3A
Winston Knoll Collegiate	362	4A	Greenall High School	268	3A
St. Joseph High School	351	4A	Aden Bowman Collegiate	266	4A
			Marion Graham Collegiate	260	3A
			Michael A. Riffel High School	250	4A
			Balfour Collegiate	243	4A
			Bedford Road Collegiate	242	4A
			Johnson Collegiate	234	3A
			Sheldon-Williams Collegiate	209	4A
			Bishop Mahoney High School	183	3A
			Luther College High School	153	3A
			Notre Dame College	145	3A
			L.P. Miller Comprehensive School	113	3A

Highlighted schools have reclassified to 4A

\*In addition, the 3A League includes the 7 teams in the Moose Jaw League.

If no schools reclassify to 4A the category is reduced to only 9 schools.

Recommendation: That the floor number for 3A be reduced. It will be left up to the Football SAG to determine the appropriate number. Suggestions range from 275 to 300.

## Conclusion

### Summary of Recommendations

1. The topic of creating a consistent classification system throughout all sports in the province from 1A-4A should be taken to the SHSAA AGM as a forward planning/discussion topic. Research from the classification committee should be used to foster discussion.
2. Maintain the status quo in classifying school populations based on grade 9-11 numbers with the Sept 30 readjustment.
3. The committee was equally divided in reducing only the boys' volleyball to 4 classifications. The topic was referred to the Sport Advisory Group for additional consideration.
4. The committee was equally divided in reducing both the boys and girls classification to 4 categories. The topic was referred to the Sport Advisory Group for additional consideration.
5. The committee unanimously approved the reduction of basketball to four classifications. The numbers for the classification was referred to the Sport Advisory Group for additional consideration.
6. The committee recommends the implementation of 3 regional tournaments in volleyball classifications that do not have 40 teams.
7. The committee recommends that 9-man football reverts to one classification. This has been passed on to the Sport Advisory Group for additional input.
8. The committee recommends that the 12-man football "floor" number be reduced to a number between 275-300. This has been passed on to the Sport Advisory Group for additional input.

**APPENDIX 1 - Comparing classifying based on grades 10-12 or grades 9-12 – Assumption that all sports are classified identically**

3A	46 to 200	36	27.5%
4A	201+	28	21.4%
		131	100.0%

# Questions for Discussion at District/Presidents Meeting

1. Is a consistent classification system viable for SHSAA? i.e. All sports are classified the same.
2. Are volleyball and basketball overclassified? If so, what is the solution?
3. Are there any states or provinces classification systems that are worth applying to SHSAA classification?
4. Would classifying schools based on grade 9-12 populations be worthwhile?
