

Club Presidents, Coaches and Parents,

As you are aware COVID 19 is still here and we are dealing with new challenges. While a majority of people are vaccinated we still face people getting sick. EHYSL receives guidance from the State Level and we must follow their guidance. With our season only a week away EHYSL COVID Policy is as follows :

Wearing of masks outdoors while participating in an EHYSL sanctioned event is OPTIONAL. However social distancing of 3 or more feet is required.

We will continue with spectators being 6 or more feet off the line of play at all times. We will also continue with teams being on the opposite side of the field. Home Spectators will remain on the side of their team and Visitor spectators remain on their team side.

If playing on a school field, all players, coaches and spectators will follow that School District COVID rules.

INDOOR SOCCER- at all indoor soccer events, MASKS are Required at all times regardless of vaccination status. Players and Refs are not required to wear masks while on the field actively engaged in soccer.

Also please continue to use EHYSL website form to report any COVID exposure or positive test.

COVID is constantly changing as well as the State Guidance. I will send out further emails regarding our policy as guidance changes.

Thank you for your understanding as we all want safe play for our children and all that watch the game.
