

ICE CASTLE

To our customers:

We have undergone extensive cleaning and sanitizing in our facility during the time we have been shut down. Please follow government guidelines with social distancing and sanitizing while in our facility to help us ensure safety for our staff and customers.

- Participants with risk factors or illnesses should not attend in-person training and ice sessions.
- Participants with symptoms or signs of illness should not enter the premises.
- Face masks are recommended (except for hockey players on the ice).
- Players need to bring and label their own water bottles; no sharing of water.
- Player's towels and equipment should be for their personal use only.
- Players are encouraged to come dressed in full equipment.
- Locker rooms will be limited to a small number of players in each room, and players should be socially distant.
- Parents should not be in the locker rooms for any reason, but in the event a young player needs help with equipment, he/she should come out of the room for assistance.
- We recommend players come alone to the rink, but if a parent prefers to come, then it should be limited to one parent.
- Any spectators should stay in the bleachers in an appropriate distance from each other.
- No loitering in the lobby or bleachers. Visitors should exit the building as soon as possible after the ice session is over.
- No tailgating/gathering in the parking lot.
- Tobacco use and vaping is prohibited inside the building, including smokeless/chewing tobacco. Please discard any chewing tobacco in a trash receptacle before entering building.

We appreciate your business and cooperation during this difficult period. Stay safe and enjoy the ice!
