March 11, 2020

Region Membership,

Following the direction of Washington State leadership, we have deemed volleyball tournaments to be non-essential and believe that it is our responsibility to be mindful citizens, and leaders in our community. Therefore, we are suspending all PSR-hosted events and rescinding PSR sanctions for club-hosted tournaments through March 31, 2020. This includes the PSR Bid Tournament, PSR HP Tryouts, and any PSR sanctioned club-hosted tournaments. As this public health crisis evolves, we will continue to evaluate the landscape in western Washington and provide an update regarding future events by Wednesday, April 1, 2020.

At the point that it is determined to be safe to resume, there will be changes to the calendar while we re-schedule and re-format these cancelled events. This could include changes to the Bid, Power League, and Regional tournaments as early as April 4. It's difficult to predict exactly how or when the schedule will change, but we appreciate your patience as we all work through these challenges.

Facility owners/managers, club owners, and directors, please fully educate yourself on the recommendations of the appropriate agencies regarding sporting events and social gatherings. After you consider the recommendations, should you choose to continue to hold practices, we expect that your organization will be prudent about following those recommendations.

The potential cancellation of any USA Volleyball event will be up to the sanctioning region. Questions about upcoming out-of-region travel can be directed to your club directors and the corresponding region office.

Our website has links to the latest information provided by USA Volleyball, the CDC, WHO, and all local county Health Departments. Please continue to educate yourself on this topic. We want to emphasize facts over fear. As always, encourage your athletes to practice good hygiene and stay home when sick.

We know these decisions and the issues we all face present challenges. However, after seeking counsel from USA Volleyball and our Board of Directors, we feel this decision is in the best interest of our members and our community. We will keep you updated and continue to work diligently alongside you to answer questions and find solutions.

Thank you for your understanding.  
PSR Staff
