Returning this Fall to the
Hudson Valley Area

Welcome to the Hudson Valley Icebergs

Our Adaptive Ice Hockey team is returning this Fall to the Hudson Valley Area. We are committed to an all-inclusive format making every player matter. It is about building a team frame of mind while learning some pretty amazing skills.

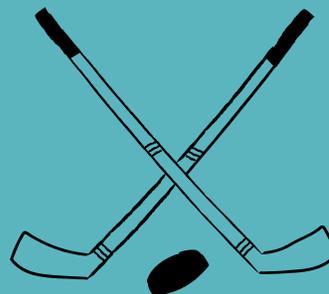

We are a hockey team that builds on a learn-to-skate platform so no experience is required to join us. If you can't skate we will help you learn.

Our Coaches and Junior coaches are committed to helping each player learn and succeed at their own pace.

We are a not-for-profit 501c3 team.

We are a part of the American Special Hockey Organization!

It is about finding the correct mix for every player. Some players may need equipment to assist them in getting comfortable on the ice and that is okay. If you want to learn we are here to make that happen.

After learning to skate then we move forward with Learning about hockey equipment and hockey skills all the way to game play.
