WCYHA
Board of Directors
2330 S. Main Street
West Bend, WI 53095

WCYHA Members,

I am writing to express my intent to run for the tournament director position in the board elections. I recognize that this is a position that greatly impacts the reputation and opinion of our association.

I am a husband to a wonderful wife and father to 3 amazing children (soon to be 4 in July). My wife and I have been a part of the West Bend community 30+ years. We are a "new to hockey family." My girls joined mites this past year and got me playing hockey as well. The people and the game itself have me hooked and as someone who never liked winter, it brings me something to look forward to in this frozen tundra.

On the professional side, my primary job is a maintenance manager at a local investment caster. This job requires budgeting, resource management, milestone tracking, documentation, and effective communication skills to name a few. I believe these skills directly translate to what the tournament director position requires. The ability to negotiate with contractors and manage resources that do not report to me are also key functions of my position. In addition to this, I am an adjunct professor at MPTC which demands organization, time management, and the ability to communicate new ideas. I have board experience as the chairman of the electro-mechanical advisory board for 2 terms and have served on other boards for the last 5 years.

A trait that I believe will set me apart in this position is my desire to create processes. One of my goals is to make things better. I have written procedures, training guides, and manuals on how to do my current job. I enjoy mentoring and helping others develop. This is my way of succession planning. Furthermore, I do this for those I manage so that they can be more efficient, self-directed, and have a better work life balance.

I believe my experience, communication skills, and project management skills would make me a strong fit for this position.

Thank you for your consideration,

Adam Lemmer
