## IN REVIEW: WEEK 2

Week 2 kicked off with incredible energy and intensity as teams came ready to compete. From the start of the first timer, the games were fast-paced and full of highlight moments, with several matchups coming down to the wire. Players showed great teamwork and determination, making for an exciting start to the day.

Unfortunately, as the afternoon progressed, the clouds rolled in and steady rain forced us to postpone the final two hours of play. While it wasn't the finish we hoped for, the competition and sportsmanship on display earlier in the day made Week 2 another memorable one. We're looking forward to picking up right where we left off next week!

## WEEK 2 RAINOOTS

Due to the rainout during Week 2, the final two hours of games have been postponed. The board will be meeting soon to discuss a plan for rescheduling and making up the postponed games. We appreciate everyone's patience and will share updates as soon as more information is available.
