

# DANA HILLS GIRLS BASKETBALL PROGRAM

*Teams are made during the season players are made in the offseason*

## Girls Basket Program

High School basketball season typically starts the beginning of November, while the pre-season program and camps during the Summer and Fall help us to establish a foundation for our girls and allow them to make friends and stay productive year round.

I highly recommend participation in our summer camp and programs. Participation will help establish a base that will prepare your daughter for a successful basketball experience/career.

The summer program is for returning Dana Hills team members and we welcome all new players of all ability levels.

## Girls Basketball Program
