

REFR SPORTS

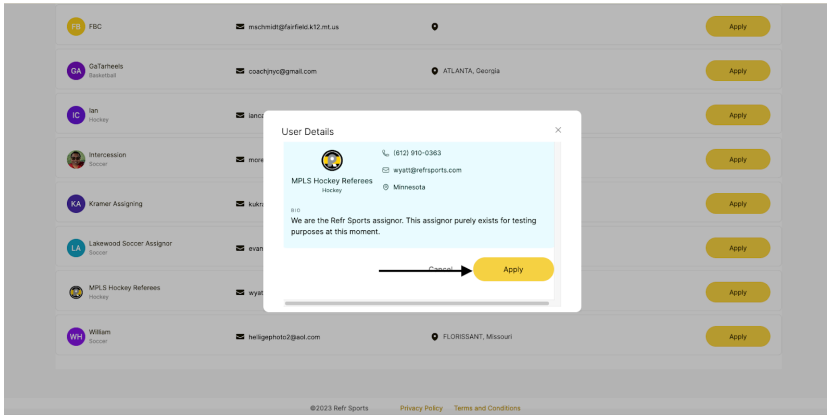

Getting paired with an assignor from your referee account

As a referee, this (along with your certifications) is the key to beginning to work games and receiving payments on the Refr platform.

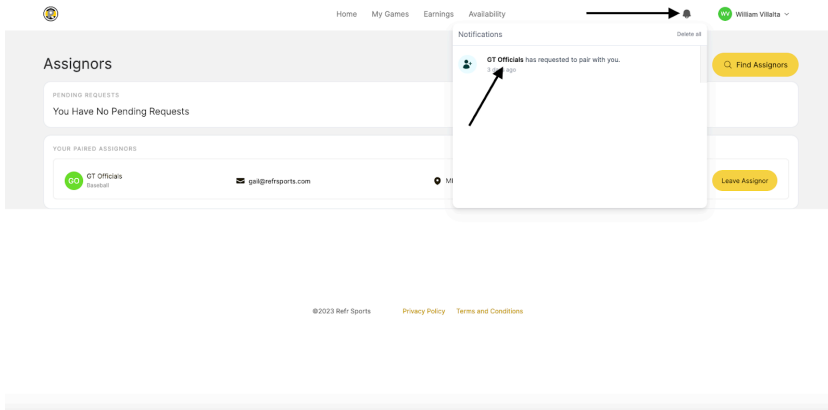

- Your first step will be to locate the 'Assignors' section located under your profile and click into it.
- You can filter by city, state and sport to locate assignors within your area, or you can type in the search bar to find any assignor who you know by name.

The screenshot displays the 'Assignors' section of the Refr Sports platform. At the top, there are navigation links for Home, My Games, Earnings, and Availability. The user's name, John Jones, is visible in the top right corner. A user menu is open, showing options for Profile, Assignors, and Log Out. A yellow callout box labeled 'Go To The Assignor Section' points to the 'Assignors' link. Below the navigation, there is a search bar for assignors with filters for State, City, and Sport. A yellow callout box labeled 'Search For Your Assignor And Hit Apply' points to the search bar. The main content area shows a message: 'You don't have any paired assignor yet' and 'Search an assignor to be paired with'. A background image of stadium seating is visible on the right side of the page. The footer contains the copyright information: ©2023 Refr Sports, Privacy Policy, and Terms and Conditions.

- Once you've located the assignors that you know or that you're interested in working with, you can click on an assignor and view some additional information on them and then click to **Apply**.

- Once an assignor has decided to approve your application pair with them or if any assignor sends you a request to pair, you'll receive a notification on the bell icon. There you can click on the notification, review and take action however you choose.

If you have any questions or need any clarification on pairing to an assignor or completing your account don't hesitate to use a help center or live chat or send an email to will.villalta@refrsports.com, we're always happy to help!
