

HUDSON BASKETBALL ASSOCIATION
Coaches - COVID-19 PROTOCOLS FOR PRACTICES AND GAMES

Coach/Player Protocols:

1. ANYONE showing any symptoms of the Flu or Covid-19 must not come to practices.
2. Coaches must wear masks at all times in a school building.
3. Players must wear masks at all times in a school building.
4. Bring your own water bottle and hand sanitizer to practices and games.
5. Please remember for players to bring their own ball to every practice and game.

At practice/games:

1- **Important-** You must take attendance before practices and games begin. Click the link on the hudsonhoops homepage to report absences (named- practice attendance). Complete the google form by completing the questions with your team information. If there are no absences, write "none".

*This information will help us determine close contacts if we need to provide names to the school nurse/county health if someone tests positive for Covid-19.

2- The HBA strongly recommends no mixing or scrimmaging of different teams within a grade or across grades. By following this recommendation it will limit the number of players that could be close contacts to someone if they test positive.

Any parents or coaches that would like to update the HBA with a positive Covid test or a player having to quarantine can use the email address below.
