

Eclipse Volleyball Club recognizes the value of audio-visual and other types of electronic communication in providing players and families with an effective team and club experience. Occasionally, our coaches and team participants capture a special “event” or “moment” with their team or others from our club through still pictures, videotaping, sound recording, etc. (referred to as “Communications”). Sometimes these images are displayed on our club website, club Facebook page, other social media outlets, newspapers, TV/cable, club flyers and ads, or other materials deemed appropriate by the club.

As a family/player in Eclipse Volleyball Club we will only use Communications taken for the above outlined purposes in the coming season. If this is a concern to you please let us know so we can address any issues pre-season. We look forward to a great season together.
