

Recreational B Evaluations Schedule

The Recreational B program is for players who are newer to the game and those that want to play hockey, but don't want as much commitment at the Recreational A level. Players wishing to be evaluated for the Recreational A Comets must first be registered with AHA at the Recreational B level. Recreational B Evaluations are used to try to make balanced teams.

Recreational A “Comets”

The Recreational A “Comets” program (formally called Tier III) is designed for recreational players with advanced skills looking for a higher level of hockey. There is a greater commitment in playing for the Comets. Players wishing to be evaluated for the Comets must be registered with AHA at the Recreational B level for the 2020-2021 season. Players who are not selected for a Comets team (as well as those who choose not to be evaluated) will be assigned to a "Recreational B" (formally called Tier IV) team.

Comets evaluations will be held September 18-20 (see schedule below). Players selected for the Comets team must pay an additional fee of \$500 by November 1st.

Comets Recreational A Evaluation Schedule

Players must be registered with AHA’s Recreational B program in order to be evaluated for the Recreational A Comets. There is a \$50 evaluation fee on-line or \$60 at the door.
