Step 2

Account Creation

Account Creation:

You have indicated that you have never registered online using Hockey Canada's Online Registration system.

Please read the following information before continuing.

Step one: Set yourself up as a user

Your first step will be to create yourself a system account. This account is used to store your profile information and hockey registrations so that you will never have to re-enter data each time you register someone. You will be the user. You have not registered anybody for hockey at this time. If you are a parent/guardian, the profile information you provide on your account is YOUR information, not your child's information.

Step two: Add participants to your cart

Your next step will be to add people (called participants) to your shopping cart. Participants are the people that you want to register for hockey this season. At this time, participants in your shopping cart are not registered until you check out.

Step three: Check out

Once you (the user) have finished adding one or more participants to your cart, your final step is to proceed with reviewing, checking out, and arranging payments for the participants.

The participant is considered registered only after the check out process.
