

House League Report:

This past season was another great success for our house league we really threw a wrench in the gears when we told our teams/coaches,parents that we were eliminating cross checking from house league. This was faced with some push back but with the help of our fantastic coaches our players were able to adapt and learn new skills. We're confident that this change was a positive one. It helped create a friendlier, more inclusive environment—perfect for players who are learning the game and developing their skills.

Our championship night once again went off without a hitch. Watching the players run through the smoke and lights to take the floor gave everyone a real big league feel and sent the kids home on a high, eager to return next season. Especially with a professional photographer there capturing it all.

We're proud of how our players, coaches, and families embraced the spirit of fun, learning, and sportsmanship this year, and we're already looking forward to another fantastic season ahead.
