

Fusion Soccer Club and TRIA Kick-off a New Partnership

Fusion Soccer Club and TRIA Orthopedic Center are proud to announce a new partnership for the 2019 season!

Here are some of the ways we're looking forward to working together:

- TRIA will provide baseline concussion ImpACT assessments (see sidebar).
- TRIA will host a coach's clinic on injury prevention with a focus on ACL injury prevention.
- Athletic trainers from TRIA will be on-site during certain tryouts in July to provide medical services.
- TRIA will share content in the monthly Fusion newsletter to educate athletes and families on topics including injury prevention, nutrition, cross-training and sports psychology.

"TRIA is the perfect partner for our club as we work to enhance and expand our programming around holistic development. We have a shared commitment to keeping our athletes and communities healthy, but we also share a common belief in the many life-long benefits that come from participating in youth sports," says Fusion SC Technical Director, Lawrence Tsoi

"Partnership is at the heart of everything we do," says TRIA Sports Medicine Manager Amy Hamilton. "Working together with athletes, coaches and parents, we want to support Fusion's mission to provide youth athletes with opportunities to play soccer at any level in a fun, safe and respectful environment." With locations in Bloomington, Maple Grove, St. Paul and Woodbury, TRIA offers comprehensive orthopedic and sports medicine care delivered by a team of nationally-recognized specialists. TRIA's sports medicine team of orthopedic physicians, physical therapists and athletic trainers have one common goal: helping people return to the activities they love safely, successfully and as quickly as possible.
