What is an earliest memory that helps us understand how you fell in love with football?

I remember playing flag football growing up and how fun the sport was. I remember even as a child getting nervous before a flag football game. I think the nerves was more anticipation than anything. I feel the most valuable lesson taught to me about playing football was to have fun. We have created an environment of too much competitiveness in youth sports. To this day, I couldn't tell you the score of any youth game I played. I do remember my youth coach giving us a pack of football cards after every game. Keep it fun at a young age. Who cares about the score.

Which coach had the greatest impact on you growing up?

Well I think I am the only coach in the state that has had the opportunity to coach with or play for Pat Mitchell (Cedar Falls), Tom Wilson (Dike-New Hartford at the time), and Gary Swenson (WDM Valley). All three have had a tremendous impact on my career as well as my life.

If you could pick one aspect of your coaching career that you are the proudest of, what would it be?

When I was at Cedar Rapids Jefferson, we had a young man that needed a lot of resources at the time. I saw his potential as great football player. I took him to all types of camps, college visits, picked him up for morning weights, etc. his entire high school career. He grew into the strongest athlete ever at Cedar Rapids Jefferson and is now a Division I football player. I feel without my assistance he may not have reached his peak.

What are you most excited about as the 2020 football season is approaching?

The excitement of being back in a small community. We all have been scattered since mid-March and feel disconnected as a whole unit. Hopefully we can spend time together as a team with goals and get back to 'normal'
