

Positive COVID-19 Test Protocol

This document provides the basic procedure to stop COVID-19 transmission if a player, coach, manager, or volunteer has a positive test result for COVID-19.

Close contact definition:

Updated CDC 10/22/2020: Someone who was within 6 feet of an infected person for a total of at least 15 minutes over a 24-hour period starting from 2 days before illness onset (or, for asymptomatic patients, 2 days prior to specimen collection) until the time the patient is isolated.

- Close contact applies to players, coaches, managers, and volunteers from the same team
- Close contact definition to be determined by all others including the opposing team and officials

Mandatory Protocol

1. Notify Linda Jondo, PVAHA President (PVAHApresident@gmail.com), and Debbie Moon, CBHL Commissioner (CBHLcommish@gmail.com) of the following:

- *Team, division, level*
- *Dates and locations of in rink activities (practices and/or games)*
- *Date of onset of symptoms*

The identity of the patient or other identifying information may not be revealed, alluded to, or confirmed.

2. Team is quarantined, regardless of negative test results, for 14 days. (CDC)
3. Notify any team that falls within timeframe
4. Notify team(s) in any other league (EJEPL, high school, etc.)
5. Cancel and re-schedule games during 14-day quarantine
6. *Debbie Moon to notify officials organizations*

Opposing team(s) upon notification:

- Were any team members within *6 feet of an infected person for a total of at least 15 minutes over a 24-hour period?* (team will be notified as to whether player, coach, etc.)
 - Yes - Testing is recommended. Self-quarantine for 14 days from their last exposure (regardless of test results). Cancel and reschedule games during 14-day quarantine
 - No - Self-monitor for symptoms
