

## **Anthony (Tony) Lee**

I appreciate the opportunity to be considered for a position on the KCYHA Board of Directors. I hope to provide guidance, perspective and direction to the Board to help build the future of youth hockey in Kansas City.

### Hockey Background

I've been playing hockey as long as I can remember. Below is a quick summary of my background.

- Grew up in North Dakota
- Played "house" hockey at the 6U and 8U levels
- Played "travel" hockey at the 10U, 12U and 14U levels
- Played high school at the Varsity level for three years
- Played and coached club hockey at the University of Nebraska-Lincoln
- Assistant coach for Olathe East in the KC Metro HS Hockey league
- Head and assistant coach (Level 4 certification) for both house and travel hockey teams since 2012 within the KCYHA
- Two sons currently playing within the KCYHA

### Outside of Hockey

My family and I live in Overland Park. All our kids play multiple sports, so when we're away from the hockey rink, you can find us at soccer, lacrosse, volleyball and baseball games.

In order to fund the hockey experience, I work for Garmin International in Olathe as an Engineering Manager in the areas of automation, robotics, logistics and manufacturing.

### Conclusion

My journey through hockey as a player, coach and parent has provided me a broad perspective on the game in various markets and will allow me to provide meaningful guidance and an open mind to all topics the Board may have to consider. I truly appreciate your consideration.

Anthony (Tony) Lee
