

# **PATCHES**

In this pack you should have two (2) National Championship patches for each player and five (5) additional patches for your staff. There are forty-five (45) patches total for the team (High School will get a few more due to roster size).

The patches should be sewn on each player's home AND away jersey, on the upper right chest (see sketch below).

**Patch location on front of jersey.**

With all teams participating in the USA Hockey National Championships displaying these patches, it will make their presence felt, accentuate the excitement of the tournament and act as a positive reminder of the accomplishments they have achieved.

Thank you for your cooperation and best of luck!
